

Rush Soccer is excited to announce that they have launched their own social network! The new social module of the Rush website is similar to Facebook except that it is for Rush Members only!

Connect with Rush coaches, players and parents from across the country to discuss all things soccer!

Want to discuss the new partnership with adidas? Sign in and visit the Club News button under the Players tab and share your thoughts.

To access the new social feature of the website, you must be a registered user for the Rush website. If you aren't a user yet, click on the black membership button above that corresponds to your membership type, fill out the membership form and join the conversation!
