

Baboucarr Jammeh, better known to all as Mal, has just recently signed as a professional soccer player in the second division of Finnish Football with Jippo FC. After playing for Colorado Rush's academy team for two years, Mal went on to represent Gambia with the U20 national team and has been on trial with professional clubs in the USA, France, Spain and Sweden. His path has now led him to his new club in Finland. His former Coach, technical director Erik Bushey stated, "Mal is one of the hardest working and most passionate players to come through our program. His journey to become a professional footballer is far from over but this is a great step for him." Please visit the below link for more information!
