

Rush Soccer, in conjunction with adidas and Soccer.com, is pleased to announce the unveiling of the first ever Rush customized cleat! This cleat is made specifically with the Rush colors and logo and is exclusive to the Rush membership. The adidas F50 cleat enables the player to dribble at high speeds in dry or wet weather and provides the fastest traction pattern for quicker turns and acceleration.

Click [here](#) to order your cleats, but get them quick – this first round will go quickly! If your size is unavailable, be on the lookout for an announcement regarding the custom cleats from Rush in the near future. This is a test run and will be expanded into a larger offering if this program proves to be successful.
