

Virginia Rush and DOMA Technologies, A

Partnership for the Future!

DOMA Technologies, LLC, and the Virginia Rush Soccer Club, leaders in their respective fields and the Hampton Roads community, have formed a partnership beginning in the Spring 2011. DOMA Technologies, a nationally recognized company, has signed a three year commitment in support of Virginia Rush Soccer.

DOMA Technologies, LLC, co-founded in 2000 by Pat and Leticia Feliciano, specializes in providing web based document and records management solutions converting hardcopy documents to easily stored digital images. In addition, DOMA continually serves and supports charitable organizations in the Tidewater region by our monetary donations and active involvement in volunteering and fundraising events.

"As a member of the local business community as well as a father of two children that participate in the Rush club, I'm excited about this partnership opportunity. Our two organizations both share similar missions within the community and it's a natural fit to work together,"

Pat Feliciano, Co-Founder of DOMA Technologies.

As the inaugural member of Rush Soccer, a multi-national organization comprised of

thirty-seven clubs spanning three continents, the Virginia Rush provides soccer opportunities at all levels for athletes ranging from pre-school to adult. Since the Club's inception in 2002, membership has grown to over 4,500 youth and adult players. While competing locally in the VCCL and VSL, the Virginia Rush is the only club in the area that is able to offer members the opportunity to compete in the premier youth leagues in North America: United States Soccer Developmental Academy and Elite Clubs National League.

"The Virginia Rush is extremely excited about this title sponsorship. We are enthusiastic about the potential opportunities that this 'team' will be able to provide for our athletes now and in the future,"

Jay Hoffman, Director of Academy Coaching for the Virginia Rush.
